ABOUT BKS

BKS Textiles Private Limited, established in 1985, is a 'Vertically Integrated' manufacturer and exporter of high quality Woven fabrics, Home textiles, Institutional textiles, Organic & Fairtrade textiles and Coated textiles. Our manufacturing facilities are located in Tirupur & Perundurai, spread in an area of 7.5 Hectares, comprising of Sizing (weaving preparatory), Weaving, Processing, Sewing and Laboratory, with 1000+ employees.

We export to various countries across the globe namely UK, Europe, USA, Australia, Canada, Middle East, Thailand, Indonesia, Srilanka and Japan.

Mr. M. Senthilkumar
Chairman &
Managing Director

PROMOTER

Mr. M. Senthilkumar, the Promoter Chairman and Managing Director of BKS Textiles, has more than 4 decades of experience in the Textile industry. His vision, global outlook and passion for textiles has shaped the company into a responsible and quality-oriented manufacturer of woven fabrics and made ups over these years. Mr.Senthil Kumar is currently the chairman of Palladam Hi-Tech Weaving park (PHWP), the first Integrated Textile Park established under SITP scheme of Ministry of Textiles, Govt.of India.He was the Former Chairman, Southern India Mills Association (SIMA) 2015-17.

BKS stands for Quality, Customization,
Ethical & Responsible Manufacturing and Relationship.

YARN & SIZING

BKS sources Cotton, Polycotton, Polyester, Nylon, Linen and Viscose yarns from reputed spinning mills in India and Abroad, in various counts ranging from 4's to 100's. The weaving preparatory unit of BKS is equipped with state-of-the-art machineries that include four automatic warping machines and two multi-cylinder sizing machines to feed warp to in-house weaving and as well as for vendor operations.

WEAVING

The weaving unit of BKS is installed with state of the art, brand new, 36 ITEMA Electronic Dobby Rapier weaving machines with working width up to 345 cms. The production output per day is around 25,000 mtrs in various weaves like satin, twill, drill, dobby, plain, oxford, satin band, satin stripe, percale, mate etc., BKS works with many dedicated contract weaving units through which we get around 75,000 mtrs/day production output.

PRODUCTION CAPABILITY
100,000 METERS PER DAY

WIDER WIDTH PROCESSING

BKS' wider width processing unit located in SIPCOT, is equipped with state of art machineries with production capacity of 1 Million meters per month for processing of high quality bedlinen fabrics.

The unit is equipped with European machineries such as Osthoff Singeing, Benninger for Scouring & Bleaching and Kusters Continuous dyeing range (cold pad batch).

We specialize in reactive dyeing of natural & manmade cellulosic fibers like Cotton, Polycotton, Linen & blends, Hemp & blends, Tencel, Modal, Bamboo etc.,

We are following Zero Liquid Discharge (ZLD) norms in our processing unit for which the unit is equipped with Effluent treatment plant to recycle and reuse discharged water up to 500,000 Liters per day.

Currently, the plant is in its last stages of commissioning and will commence operations in Oct 2022.

Production Capacity:

Continuous Bleaching Range	40,000 meters per day
Continuous Dyeing Range	40,000 meters per day
Sanforizing	40,000 meters per day
Calendaring	40,000 meters per day
Aero Finishing	20,000 meters per day

PRODUCTION OUTPUT
100,000 METRES
PER DAY.

NARROW WIDTH PROCESSING

BKS Processing facility, located in SIPCOT Perundurai Erode District, is a state-of-the-art manufacturing unit with Continuous Bleaching Range (CBR), Continuous dyeing range (CDR) and Rotary printing machines. We can take up processing on griege fabric up to 78" and finish up to 72".

We can do RFD, RFP, Bleaching, Dyeing, Printing and Coating on 100% Cotton, Polycotton, 100% Polyester, Viscose, Poly-Viscose, Linen, Tencel, Modal and Blended fabrics.

Types of Dyeing : Reactive, Disperse, VAT & Pigment Padding
End uses : Fabrics for Apparels, Home Textiles, Made ups, Work Wear, Technical Textiles etc.,

Production Capacity:

Continuous Bleaching Range	65,000 meters per day
Continuous Dyeing Range	35,000 meters per day
Soft Flow Bleaching & Dyeing	16,000 meters per day
Jigger Dyeing	20,000 meters per day
Sanforizing	55,000 meters per day
Calendaring	70,000 meters per day
Peaching	14,000 meters per day

ZERO LIQUID DISCHARGE (ZLD)

For achieving ZLD, BKS has installed an effluent treatment plant (recycling plant) of capacity 6,00,000 litres/day for treating its fabric processing effluent and has been successfully recycling and reusing 93% of water.

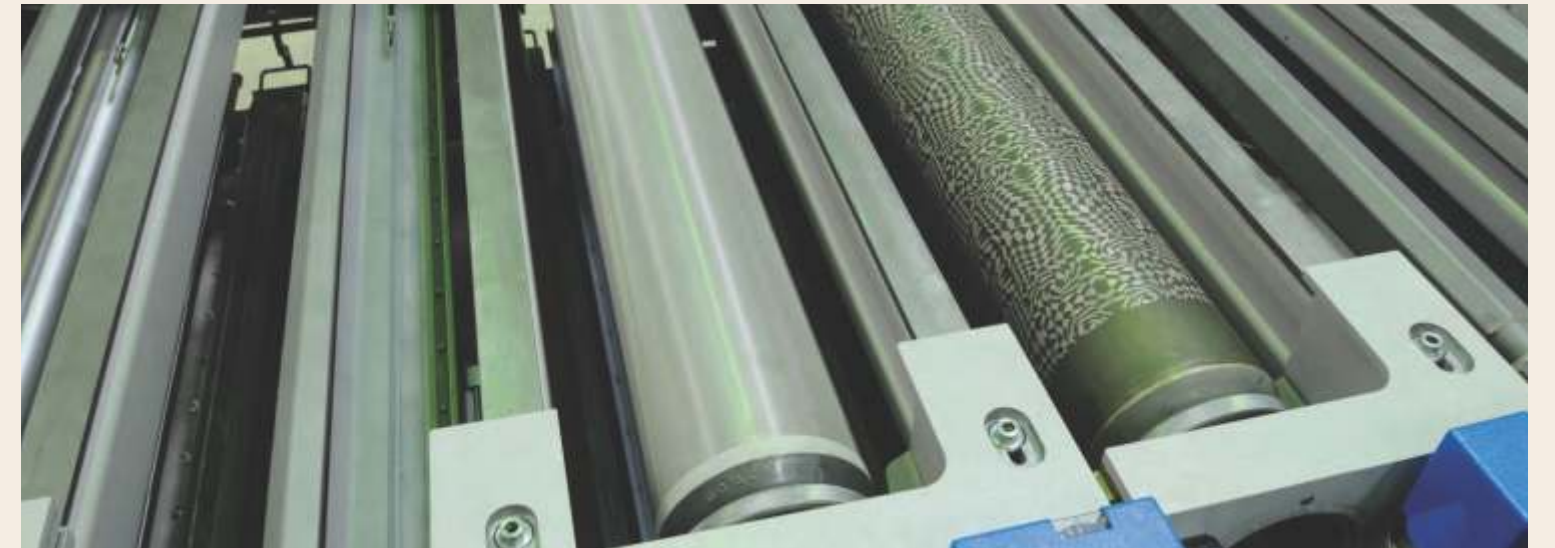

PRINTING

Our printing facility is equipped with Stormac RD-6 Gold make, 12 colour Rotary printing machine with printable width up to 72". For high precision printing, Screen making is with Smart LEX 7043 (Laser Exposure technology). We have Climaterizer – Clima 1850 and BestIMAGE CAD with latest version color separation software.

We can handle all kinds of printing like Reactive, Pigment, Discharge, Disperse and Kadi on various base fabrics like 100% cotton, polycotton, 100% polyester, viscose, linen, poly-viscose etc., The production output is 30,000 mtrs/day. With latest technology and state of the art machine, we can cater to all high end printing needs for made ups and apparel end use.

PRODUCTION OUTPUT
30,000 METRES PER DAY

SEWING

We have a set up a state of the art sewing factory in an area of 100,000 sq.ft. in HiTech Park and currently the unit is equipped with 350 sophisticated sewing machines including single needle, double needle and Zigzag machines from the renowned makers of Juki, Brother. The production output per day from this factory is 5000 sheet sets, 5000 shopping bags, 2000pcs of Table linens, 50,000pcs Napkin and 3000 Blankets.

Located in head office premises, is equipped with 50 sewing machines comprising of sophisticated (Juki & Brother) 3 thread over-lock and single needle machines capable of seaming out 35,000 pieces of face towels for beauty & wellness industry.

LABORATORY

Our in house laboratory is equipped with sophisticated instruments for testing of various physical and chemical parameters from yarn to finished fabric, to ensure quality in each stage.

PRODUCTS

HOME TEXTILES

- Bed Sheets Sets
- Fitted Sheets
- Pillow Cases
- Duvet Covers
- Blankets
- Quilts & Comforters
- Table Cloths
- Kitchen Towels
- Aprons

WOVEN FABRICS

BKS Textiles manufactures a wide variety of Woven fabrics in 100% Cotton, Polycotton, 100% Polyester, Linen, Viscose & various Blended fabrics from 50 GSM to 500 GSM in widths up to 345 cms, in Greige, Bleached, Dyed and Printed forms.

BKS is a nominated supplier for ready to cut processed fabrics for brands such as:

ORGANIC & FAIR TRADE PRODUCTS

Bed linens, Pillow cases, Duvet covers, Quilts, Aprons & Shopping bags.

INSTITUTIONAL (CONTRACT) TEXTILES

- Flat Sheets
- Pillow Covers
- Duvets
- Blankets
- Table Cloths
- Napkins -Satin Band, Plain and Jacquard weaves
- Quilts

COATED FABRICS

The Coating Division is capable of producing different types of Chemical Coated Fabrics and Finished Fabrics impregnated with special chemicals.

QUALITY INSPECTION

Quality is what our company is known for. Our quality inspection team consists of experienced professionals to monitor quality online and in final stage. We work with ASTM 4 - point system for Fabrics and AQL 2.5 standards for Made ups.

SAP

All the production processes are planned and monitored through our SAP system "SAP S4 HANA FMS" Software.

TEXPROCIL AWARDS FOR EXPORT PERFORMANCE

Corporate Social Responsibility

BKS works incessantly to increase the green cover and so far we have planted 5,000+ saplings in 35 acres of our land.

BKS focusses on Training & Skill development for its employees through In-house training classes and Govt. of India schemes like PMKVY.

BKS GENERATES 40% OF ITS POWER REQUIREMENT THROUGH ITS OWN WIND MILLS.
